

RESOLUTION NO. 2015-20

The Board of Supervisors advises and consents to the policy for the determination of the width of bridges and culverts constructed in Lyon County, to include replacement bridges and culverts.

Factors that are to be considered:

1. Iowa Department of Transportation "Design Aids for Rural Roads" - I.M. 3.210
2. FHWA recommendations
3. Roadway surface
4. Roadway width
5. Traffic count

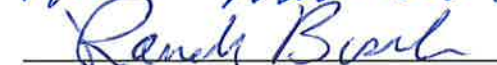

All bridges shall be at a minimum of 30-ft wide on non-hard surfaced roadways, concrete surfaced roadways, or asphalt paved surface roadways. All culverts shall be at a minimum of 32-ft wide on non-hard surfaced roadways, concrete surfaced roadways, or asphalt paved surface roadways. All replacement bridges and culverts will be primarily made of concrete.

Date: May 26, 2015

Chairman, Board of Supervisors
