and other related construction work.

The Board will receive and consider bids on the entire project, and will award a single contract to the lowest, responsive, responsible Bidder.

All work is to be done in strict compliance with the plans and specifications, also referred to Drawings and Project Manual respectively, which have heretofore been approved by the Board of Supervisors, and are now on file for public examination in the office of the County Auditor.

All work shall be completed on or before June 23, 2018, including all cleanup, mobilization and punch list items and project ready for final payment. Once work begins on the project, the contractor shall complete all work and the parking lot be open to traffic within 20 working days.

Each proposal shall be accompanied by a certified or cashier's check drawn on a solvent Iowa bank, or a bank chartered under the laws of the United States, or by a share draft drawn on an Iowa credit union or a credit union chartered under the laws of the United States, made payable to the Lyon County Board of Supervisors. Checks shall be in the amount of ten percent (10%) of the amount of the bid. In lieu of a certified or cashier's check, each proposal may be accompanied by a bid bond, issued by a company authorized to contract as surety in Iowa. Bid bonds shall be in the amount of ten percent (10%) of the amount of the bid. The certified or cashier's check, share draft or bid bond shall be forfeited and redeemed with the proceeds retained by the Owner as liquidated damages if the Bidder fails to execute a contract and file an acceptable bond for the faithful performance thereof, within ten (10) days after the acceptance of his bid. Bid securities of the lowest two or more Bidders may be retained for a period not to exceed thirty (30) days until a

contract is awarded or rejection made. Other bid securities will be returned after the canvass and tabulation of bids is completed. If a bid bond is used it should be in substantially the same form as the bid bond form set out in the Project Manual.

Payment to the Contractor for said improvements will be made in cash derived from such fund or funds as are legally available to the Owner, including but not limited to cash payments received from the proceeds of the sale of general obligations bonds, assessments, project notes or any other method or combination thereof.

The Contractor will be paid, monthly, ninety-five percent (95%) of the Engineer's estimate of the value of acceptable work completed by the end of the preceding month. The final payment will be made not less than thirty (30) days after completion of the work and acceptance by the Owner provided all final documents have been furnished and executed by the Contractor.

Final payment will not be due until the Contractor has certified to the Owner that the materials, labor, and services have been paid for in accordance with the requirements stated in the Project Manual.

The successful Bidder will be required to furnish performance and payment bonds each in an amount equal to one hundred percent (100%) of the contract price, said bonds to be issued by a responsible surety approved by the Owner, and shall guarantee the faithful performance of the contract and the terms and conditions therein contained and shall guarantee the prompt payment of all material and labor and protect and save harmless the Owner from claims and damages of any kind caused by the operations of the Contractor and shall also guarantee the maintenance of all improvements for a period of two (2) years from and after the completion and acceptance of the Owner.
